

**FUTURE READY
INSTITUTES**
of Hamilton County

UTC Institute of Teaching and Learning

Teaching as a Profession is designed for students interested in becoming an educator. This course covers the components of instruction, teaching strategies, types of assessments, student learning, special populations, educational technology, classroom management, lesson planning, professionalism, and much more. Upon completion of this course, students will have participated in an internship placement and built a professional portfolio in preparation for advanced training as future educators at the postsecondary level.

"The best thing about Future Ready is the field trips we've taken. Last semester we visited five college campuses to help us learn about college life and requirements to become a teacher."

"I want to become a high school Biology teacher. I like this class because it prepares me for my future and I get experience that will help me in my future career."

"My Future Ready class is my favorite because of our teacher. She makes learning fun and helps us understand how to teach students of all age levels and grades."

"My favorite part about this class is going to Brown Academy and Bess T. Shepherd. Because I am a senior I was able to go to two elementary schools once a week to get hands on experience third grade students."

Career Technical Education Pathways:

Teaching as a Profession- Teaching as a Profession is designed for students interested in becoming an educator. This course covers the components of instruction, teaching strategies, types of assessments, student learning, special populations, educational technology, classroom management, lesson planning, professionalism, and more. Upon completion of this course, students will have participated in an internship placement and built a professional portfolio in preparation for advanced training as future educators at the postsecondary level.

Student schedules will consist of both Future Ready Institute classes as well as the opportunity to take a variety of classes offered by the particular high school in order to fulfill all graduation requirements. This is the 4 year plan for the student's institute classes only. *DE= Dual Enrollment
